

Guide: Charges For Bidding on Yahoo Auctions

STEP 1

When you win a item on Yahoo we have to contact the seller and agree to buy the item.

Please note that unlike eBay the seller can choose to cancel the listing after the auction has ended.

If the seller is cool, we both agree on the sale. We then request the postage from the seller to our office.

STEP 2 - INVOICE A

We will send you an invoice for:

A - The cost of the item that you won

B - A standard bank charge of **300 yen** which we incur when we pay the seller.

C - A standard bank charge of **300 yen** for your transfer into our bank account.

STEP 6

When you instruct us to despatch the item we will repack it should it require any additional protection. It will then be shipped via EMS to your address.
